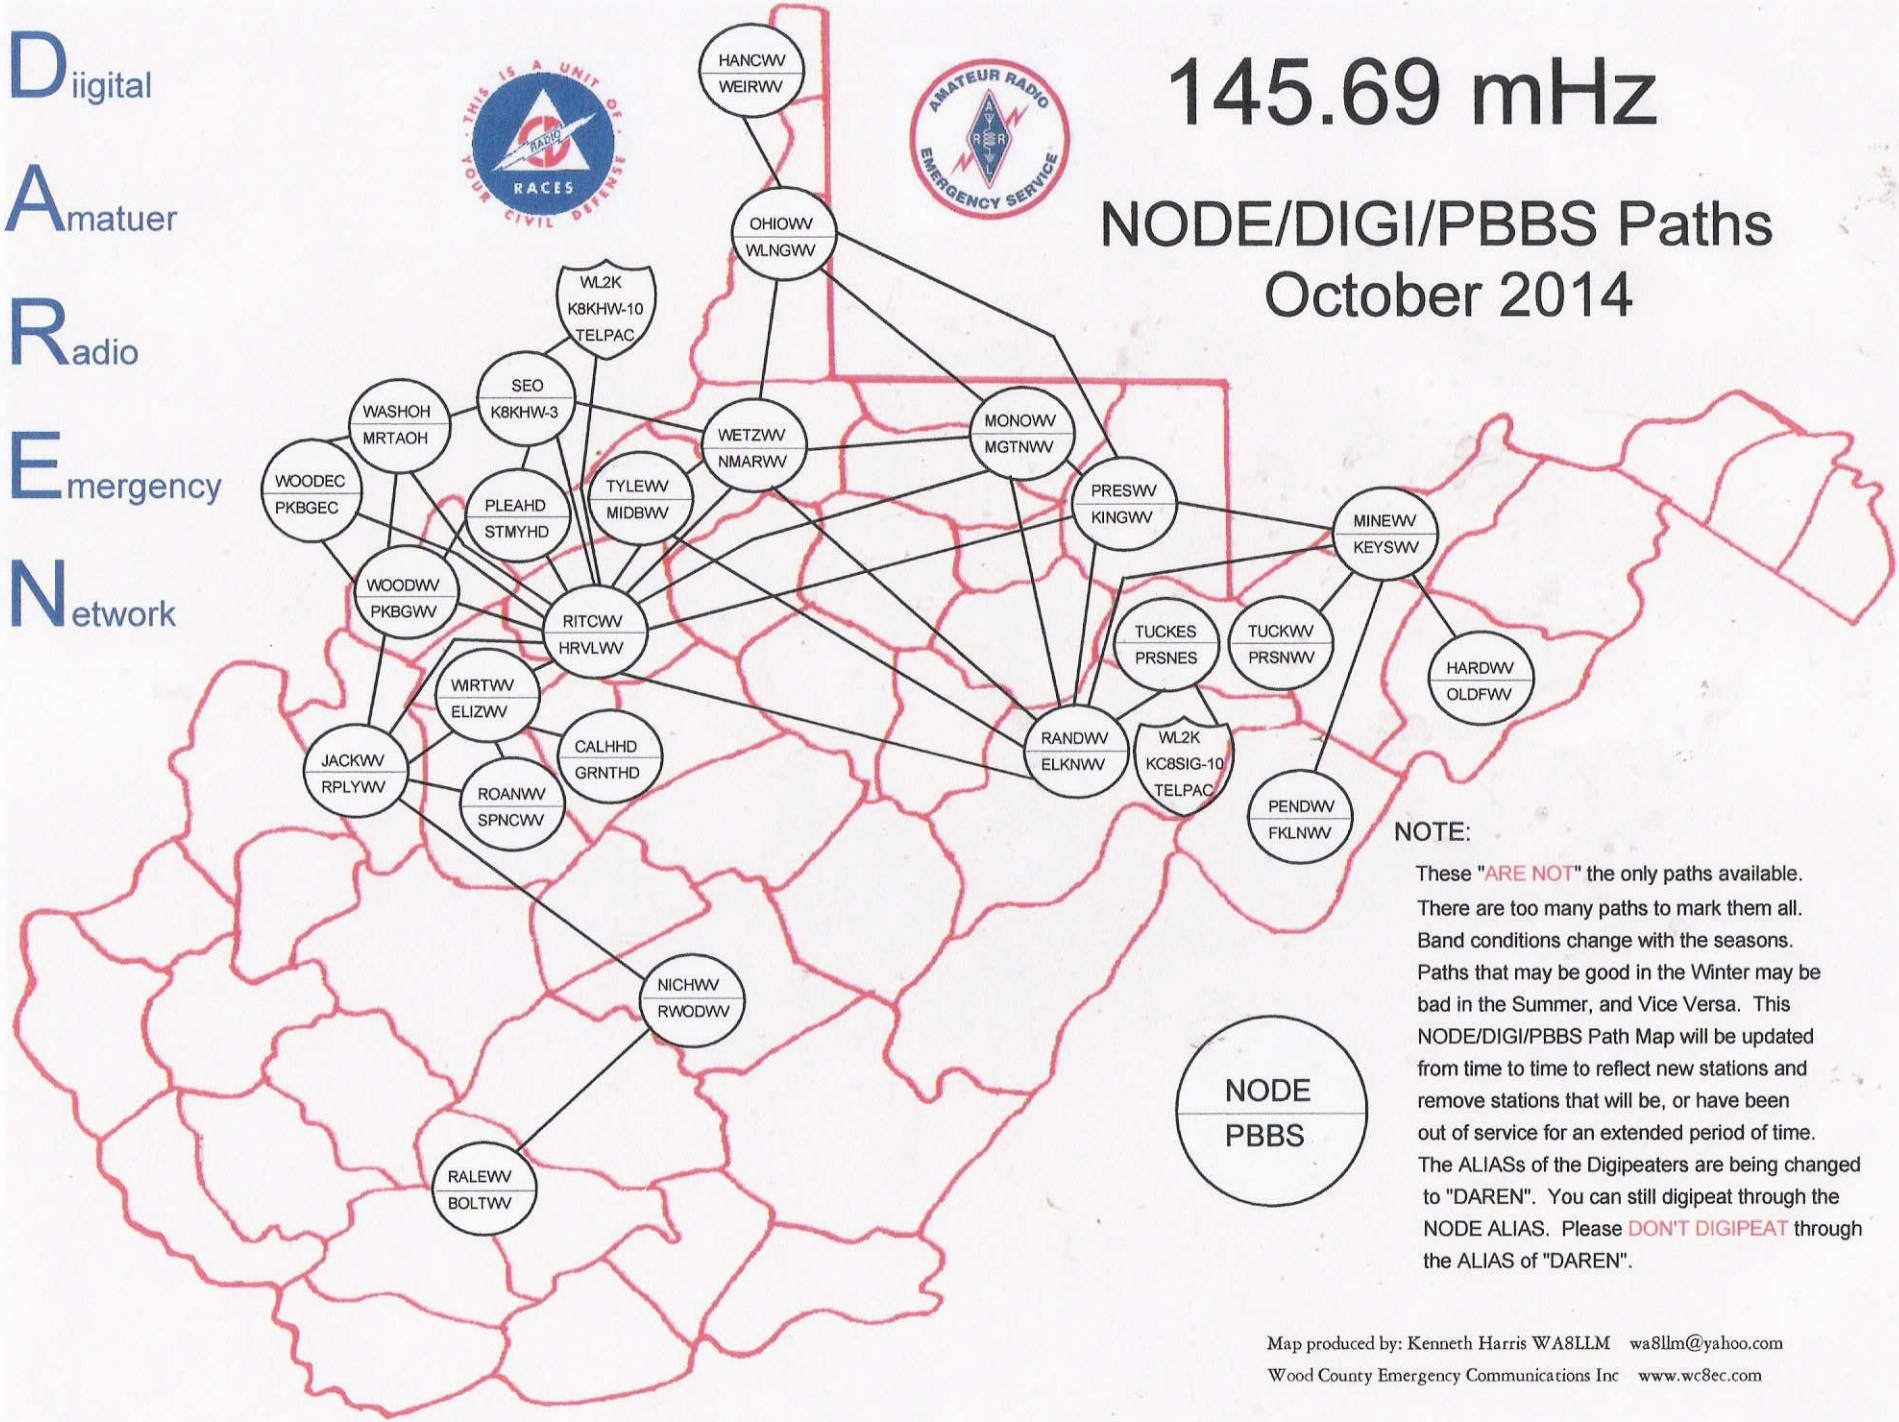
NODE/DIGI/PBBS Paths
October 2014



NOTE:

These "ARE NOT" the only paths available. There are too many paths to mark them all. Band conditions change with the seasons. Paths that may be good in the Winter may be bad in the Summer, and Vice Versa. This NODE/DIGI/PBBS Path Map will be updated from time to time to reflect new stations and remove stations that will be, or have been out of service for an extended period of time. The ALIASs of the Digipeaters are being changed to "DAREN". You can still digipeat through the NODE ALIAS. Please DON'T DIGIPEAT through the ALIAS of "DAREN".
