WOOD COUNTY BULLETIN NR 24.10                      DATE: March 10, 2024  
SUBJECT: DID YOU SET YOUR CLOCKS?

Did you get up, or stay up, until 2:00 O'clock this morning to set all of you clocks ahead an hour, or did you set them before you went to bed? If you still haven't set them that's okay, but you better do it soon. The fire departments suggest that as a reminder you should also change the batteries in you Smoke Detectors and CO Detectors the same day to keep them working for you. The batteries in you detectors should last at least a year, but when was the last time you changed them? Since the batteries don't cost that much, and they could save your life, play it safe and change them today, or a least tomorrow, and don't let them start to beep to remind you.
